KMIR says:

PALM SPRINGS, Ca. -The V Palm Springs Hotel is set to open in late February, early March of 2016. It's the brainchild of high powered attorneys Mark Geragos and Brian Kabateck.

The pair has invested over \$15 million dollars to reinvent the property that once housed The Curve Hotel. The owners are taking full advantage of the expansive mountain views by focusing a lot of attention on the outdoor spaces. One of the main attractions of the luxury boutique resort will be the chevron shaped pool and beautifully laid out courtyard.

Co-owner Kabateck says they wanted to invest in Palm Springs because it's a place they love. Both are Southern California natives and spend a lot of time in the desert. Kabateck calls the desert home for part of the year. Kabateck says they care about the community and they want the property to be an example of good things to come.
